As you drive into the 1/2 circle driveway and park beneath the porte cochere, you will be captivated by the feel of this sprawling 5251 sq. ft. near one acre estate! Forget the 6 car garage and Massive RV Parking area to the side, you will be awestruck as you enter the grand foyer and pass the columns that line the hallway past the Formal Living Room! The "Gourmet" Kitchen is stunning and outfitted with Rich Cherry Cabinets, Center Island and breakfast bar! There are upgraded stainless appliances including a double oven, food warmer, microwave, dishwasher and built in "massive" refrigerator! There is easy access to the formal dining room off the butlers pantry and windows all along the back of the home that accentuate the breathtaking back yard and view! The photo's cannot do the Great Room, Office/Den and all of the bedrooms through out the home justice; in person, this home is simply breathtaking! The Master Suite is massive and offers a "True" Retreat complete with its own fireplace and a Master Bath that is fit for a King and his Queen! The back yard is designed perfectly! One can view all that is taking place from the Covered Outdoor Kitchen (Complete with TV, Fireplace and two bars)!
