Property Description

View, View, View! Yes, the panoramic view is spectacular!!! This is split-level traditional home in a lovely neighborhood. Huge living room, recessed lighting w/ fireplace. The lovely formal dining room is perfect for having family/friends over to see the view south and west and to the patio and yard. The den has a fireplace and is most inviting with a wet bar and entry to patio w/ fireplace. The view from the kitchen, with a quartz counter and breakfast room, is equally as spectacular. The third bedroom downstairs, with a separate entry, has been completely remodeled. The large, private backyard is perfect for entertaining or just relaxing and listening to the running water of the pond. Baths, kitchen, and wet bar have been remodeled. There is a two-car garage with direct entry to home. This exceptional oasis won't last!
