Property Description

You'll love coming home to the beautiful combination of brickwork, wood siding, and mature front landscaping every time you pull into the driveway. The covered walk leads to a lovely natural-wood door with magnificent leaded glass. Cook great meals in the brand new, fully-remodeled kitchen with custom counters, lighting, and flooring, and enjoy eating them with the people who matter most to you in the large dining area or the breakfast nook. Direct access from the garage to the dining area makes unloading groceries easier. Beautiful, hardwood flooring throughout the majority of the house provides a warm inviting feel, and the vaulted ceilings give even more depth to the already large living and dining rooms. Think of the wonderful memories you can make in the enormous family room with its cozy fireplace. Want to relax with more privacy? The primary bedroom has its own fireplace in the middle of a built-in entertainment center as well as its own sliding door to the back patio and spa. It also features a walk-in closet and a fully-remodeled, en-suite bathroom. Central heating and air conditioning will keep you comfortable year-round. Two patio covers offer great spaces to unwind outside. Just one step into the house from the driveway and the garage, and no steps inside the house makes access easier. Costco, Aldi, Ranch 99, the gym, Heritage Park, and a variety of shops and restaurants are all less than 10 minutes away, per Google. Welcome to a great home for a great life!
