Property Description

Welcome to 2020 West Jacaranda Place! This house features 3 bedrooms and 2 bathrooms. You will enter into a well lit living room with original hardwood floors. On the left is the updated kitchen with extra counter space and abundant storage. Off the kitchen you will find the family room with gas fireplace, access to the garage and the backyard. From there, you will find a space you can use as a den or office. Whichever you prefer! Two bedrooms with large closets and plenty of light can be accessed off the hallway. The guest bathroom has new vanity and a bathtub/shower combo. Finally, in the rear of the house, is the primary bedroom oasis. Vaulted ceilings enlarge an already spacious bedroom. The primary bathroom has a jetted bathtub and walk in shower! There is also a walk in closet and access through a sliding glass door to the deck and the backyard. The backyard has a storage shed, citrus trees and plenty of yard space. As an added bonus, there is also a Tesla solar system! This house checks all the boxes!
